Pablo's Eye A mountain is an idea

[The Florist's Mum](#)

Axel Libeert's elastically-numbered arts collective **Pablo's Eye** releases its first album of original music in more than two decades with 'A Mountain Is An Idea', represented on **The Florist's Mum**. Fans of the group's collages of drone, ambient, psychedelic and jazz fusion back in the Nineties will not be disappointed. For fans of **Andy Stott**, **Aphex Twin** and **Jon Hassell**.
